Subject: APC Folding Propeller Update
Revision: Rev 3
Date: March 22, 2017

The design of APC folding propellers has been updated to provide greater structural capability in the blade to hub transition. The new designs are still compatible with existing hub assemblies. The list of updated propellers to date is as follows:

10x6F	(LP10060F)
9x5F	(LP09050F)
11x8F	(LP11080F)
12x8.5F	(LP12085F)
7x6F	(LP07060F)
7x4F	(LP07040F)

The new versions have the letter 'F' stamped on each blade.

Propeller weight information and other details can be found on the www.apcprop.com website.
